COURSE DESCRIPTION

This full-day course will combine the latest in diagnosis and management of pediatric orthopaedic pathologies with pediatric and adolescent sports medicine. The course will review the current literature and highlight the latest management principles, as well as provide tips and techniques useful for practitioners treating pediatric injuries.

Our goal is to enable physicians, physical therapists and other health care providers in our community to feel comfortable in their management of pediatric orthopaedic and sports medicine pathology.

TARGET AUDIENCE

Pediatricians, family physicians, emergency room physicians, orthopaedists, nurse practitioners, physician assistants, physical therapists, athletic trainers and other health care professionals with an interest in the pediatric/adolescent athlete

EDUCATIONAL OBJECTIVES

At the conclusion of this activity, participants should be able to:

- Develop treatment protocols to diagnose, manage and refer pediatric orthopaedic pathologies and sports injuries
- Effectively identify and treat common musculoskeletal injuries in the pediatric/adolescent athlete
- Effectively identify and treat acute and overuse musculoskeletal injuries in the pediatric/adolescent athlete
